* The Migratory Population has been computed chiefly from the number of householders known to have escaped enumeration owing to their having changed their residences between the time of the schedules being deposited and the time they should have been collected, with a few additions of persons reported by the enumerators to have been encamped in their districts on the Census night, but whom the sub-enumerators did not succeed in meeting with. No attempt has been made to form an estimate of unenumerated persons of whose existence no definite information was obtained.

[1] In these cases the estimated net annual value of rateable property has been returned in place of the gross annual value.

Note.—In those boroughs marked with an asterisk (*), no estimate of the total value of rateable property has been returned by the authorities; this has, therefore, been calculated in these cases at a uniform rate of ten times the annual value.

[1] The area of the colony is estimated at 56,446,720 acres, or 88,198 square miles.——[2] Of this amount, only £323,100 11s. 2d. was paid during the year 1869. The remainder (£471,442) was distributed over the previous seven years, being the sum of the yearly payments of 2s. 6d. per acre on 537,293 acres.——[3] Of this amount the sum of £331,005 11s. 4d. was received during the year 1870. The remainder, £132,814 19s., was brought to account in former years as rent, license fees, &c., under section 22, section 33, and section 34, Land Act 1862, and under section 12 and section 42, Land Act 1865.——[4] Of this amount the sum of £257,541 15s. 4d. was received during the year 1871. Of the remainder, £270,577 10s. 7d., the greater part was paid as rent, license fees, &c., during former years.——[5] Of this amount the sum of £249,300 8s. 10d. was received during the year 1872. Of the remainder, £609,841 2s., the greater part was paid as rent, license fees, &c., during former years.

NOTE.—The area licensed under the Land Act 1869 up to the end of 1872 is:—Section 19, about 780,819 acres at 2s. per acre, future price £1 per acre; section 49, about 16,407 acres, rental £2,836, total price from £1 to £4, according to position. The lands once held under section 12 of the Land Act 1865, and license section 42 of that Act, have, to a very large extent, been brought under sections 33 and 31 of the Land Act 1869; and those now held under such clauses of the Act of 1865 are following a similar course, and will appear as purchases in future years' statistics.

Note.—It is to be borne in mind, with reference to the returns of vines, that, whilst the acreage and number of vines, in common with the remainder of the statistics, are for the year ending 31st March 1873, the quantity of grapes gathered and of wine and brandy made are for the previous season. The grape crop comes in too late to admit of its being returned when the Agricultural Statistics are collected.

WILLLIAM HENRY ARCHER,
Registrar-General.

Note.—The items in this table do not represent the whole quantity of the respective crops grown, but only such as were taken cognizance of by the collectors. The minor crops are often raised in gardens, in which case the various descriptions would not be distinguished. They may be also grown upon allotments of a smaller extent than one acre, and these the collectors are not called upon to visit. The table must be looked upon as indicating the nature of certain crops which are sometimes grown in Victoria rather than the full extent to which those crops are cultivated.

WILLIAM HENRY ARCHER, Registrar-General.

Total	185,796	222,432	589,857	812,289	10,575,219	193,722	11,767,026

NOTE.—The returns of Stock are in all pability rather under the mark, in consequence of the numbers kept in towns and on allotments of land smaller than those the collectors were called up to visit, and of the horses and bullocks used by carriers on the roads. The collectors were directed to furnish estimates for these numbers, but in somases were unable to do so, hence the presumed deficiency.

WILLIAM HENRY ARCHER, Registrar-General.

Note.—This Return contains a statement of all the live stock kept upon stations, without distinction as to the numbers running upon Crown or those upon alienated land. It has been compiled for the most part from statements voluntarily furnished by the squatters, during the first quarter of 1873, in reply to enquiries from the Registrar-General's Department. In cases where the enquiries were not responded to, the figures have been supplied from other sources.

WILLIAM HENRY ARCHER, Registrar-General.

NOTE.—The patents applied for numbered 1097 during the period from 1854 to 1867, both years inclusive; 124 during the year 1868; 139 during the year 1869; 119 during the year 1870; 133 during the year 1871; and 122 during 1872. The discrepancy between the actual numbers and those obtainable by adding up the columns may be explained by the fact that many patents refer to more than one subject, and have, consequently, to be classified under two or more headings.

EXTENT AND VALUE OF GOLD WORKINGS.

Return of the Number of distinct Quartz Reefs proved to be Auriferous; the Extent of Auriferous Ground worked upon, and the Estimated Value of Gold Mining Claims, and Lands held under Gold Mining Leases, during the Year 1872.

Mining Districts.	Number of Distinct Quartz Reefs proved to be Auriferous.	Extent in Square Miles of Auriferous Alluvial and Quartz Ground worked upon.	Estimated Value of Gold Mining Claims and Land held under Gold Mining Leases.
			£
Ballarat District	201	$147\frac{3}{4}$	1,037,346
Beechworth District	795	$254\frac{3}{4}$	418,054
Sandhurst District	726	141	3,980,430
Maryborough District	541	$78\frac{1}{2}$	790,950
Castlemaine District	396	$166\frac{1}{4}$	1,437,379
Ararat District	77	$83\frac{1}{4}$	3,520,930
Gippsland District	488	$154\frac{1}{2}$	635,020
Totals	3,224	1,026	£11,820,139

Note.—The number of "distinct" quartz reefs cannot be strictly correct, as parts of the same reef, in some localities, are held to be distinct reefs, and named accordingly. As the reefs are further explored, it is found, too, that what were supposed to be separate reefs are not really distinct. The extent of auriferous ground is here put down from estimates made by the Mining Surveyors and Registrars, not from actual surveys; and in a few instances the estimates of the present Surveyors and Registrars differ from those made by their predecessors. The figures vary from year to year; as the shallow alluviums of the older goldfields are abandoned by the miners, they are taken up and occupied, under the provisions of the *Land Act*, by agriculturists and gardeners, and ground which one year was included in the estimated area of gold workings is excluded in another.

R. BROUGH SMYTH, Secretary for Mines.

AVERAGE YIELD OF AURIFEROUS QUARTZ.

Return showing the Average Yield of Gold from certain parcels of Quartz Crushed in 1872 in the several Mining Districts, from Returns made by the Mining Surveyors and Registrars.

Mining District.	Tons Crushed.	Total Produce.			Average Yield per Ton.		
	tons.	ozs.	dwts.	grs.	ozs.	dwts.	grs.

Beechworth District	76,648	41,541	4	10	0	10	20·15
Sandhurst District	$292,630\frac{1}{2}$	250,346	4	15	0	17	2·64
Maryborough District	35,158	20,408	15	0	0	11	14·63
Castlemaine District	134,241	61,192	1	2	0	9	2·80
Ararat District	$70,201\frac{7}{10}$	61,573	5	22	0	17	13·00
Gippsland District	$37,861\frac{2}{5}$	49,052	12	13	1	5	21·88
Totals	$954,571\frac{1}{10}$	568,381	17	14	0	11	21·81

Note.—The above Table does not show the total quantity of quartz crushed in the several localities, but only the yield of certain "crushings" respecting which the Mining Surveyors and Registrars have been able to obtain information. Owing to the circumstance that many of the machine-owners are unable to give, or are precluded from giving, information, it is impossible to get complete returns from every district, and, in considering the relative importance of each district as regards quartz mining, the tables relating to machinery should be examined and compared.

Since the first publication of the Statistics, information has been obtained concerning 9,482,894 tons 18 cwt. which have been crushed, which yielded an average of 11 dwts. 4·64 grs. per ton.

R. BROUGH SMYTH, Secretary for Mines.

PRODUCE OF GOLD FROM QUARTZ VEINS AND ALLUVIAL WORKINGS.

Return showing approximately the Gold obtained from Quartz Veins and Alluvial Workings during the Year 1872.

	ozs.	dwts.
From Quartz Veins	666,438	13
From Alluvial Workings	616,082	3
Total Gold Exported	1,282,520	16

Note.—The above results are but rough approximations. The Mining Surveyors and Registrars can furnish only estimates based on information afforded by the banks and gold-buyers, and on their own knowledge of the character of the workings in their districts. The check on the returns—and not a sufficient one—is that afforded by the returns of quartz and quartz tailings crushed, pyrites operated on, and washdirt and cement treated, which, however, cannot and do not comprise information respecting all the stuff put through the mills.

R. BROUGH SMYTH, Secretary for Mines.

[1] Including cotton and woollen mixed piece goods.——[2] Prior to the end of 1867 the bulk of the gold received from other colonies was transhipped under bond, in order to avoid payment of the export duty; it therefore did not appear in the returns of Imports and Exports. Since that date the export of gold has been free, and consequently the receipts and shipments of gold have been embodied in the general returns in the same manner as those of any other commodity.——[3] Including galvanized ironware.
[4] Including silk manufactures.——[5] The returns of the year 1872 are the first which include the quantity of wool imported into Victoria across the Murray.

[1] Including cotton and woollen mixed piece goods.

[2] Prior to the end of 1867 the bulk of the gold received from other colonies was transhipped under bond, in order to avoid payment of the export duty; it therefore did not appear in the returns of Imports and Exports. Since that date the export of gold has been free, and consequently the receipts and shipments of gold have been embodied in the general returns in the same manner as those of any other commodity.

[3] Including galvanized ironware.

[4] Including silk manufactures.

[5] The returns for the year 1872 are the first which include the value of wool imported into Victoria across the Murray.

WILLIAM HENRY ARCHER, Registrar-General.

* Including the nominal value of postage stamps issued to Government departments until the 2nd August 1864, when the Post Office Statute (27 Vict. No. 226) came into operation. By the 14th section of that Act, letters on Her Majesty's Service go free upon being impressed with a frank stamp; and hence it has not been necessary to issue any postage stamps to Government offices since that period.

† The Electric Telegraph being now incorporated with the Post Office, these figures include the income and expenditure of both departments.

[2] With board only.

NOTE.—This Table has been compiled from returns received from the assistant-immigration agents, receivers and paymasters, shire secretaries, town clerks, and other officials located in the various districts, in accordance with forms supplied from the Immigration Office. These forms, in addition to columns for the above information, contained a request that the wages of other prominent callings might be furnished. This request resulted in needlewomen being returned as receiving 35s. per week, if capable of managing a sewing machine, in Beechworth; in harvest men as receiving 7s. per day, with board and lodging, in Newbridge; and in millers being returned as receiving from £3 10s. to £8 per week in Wangaratta.

WILLIAM HENRY ARCHER, Registrar-General.

FRIENDLY SOCIETIES.—INCOME.

NOTE.—The attention of the Members of Friendly Societies is especially drawn to the illegality of using one fund for the purpose of another. Great care is also necessary in the admission of members—first, as to health; and next, as to age. In regard to age, the younger the members, the better; it being of importance to keep the total of the average ages under thirty, until graduated rates for all ages are determined. Vigilance is also highly necessary in reference to the payment of Sick Money—that is, to making such payments where and so long only as real disablement exists. And again, surplus funds, instead of being left unproductive, should, as speedily as possible, be invested at as high a rate of interest as can be obtained consistent with perfect safety. Any steady declension in the old rates of interest, or any striking increase in sickness and mortality in special localities, or in connection with particular occupations, should be carefully watched, and the solvency of each fund periodically tested. The future well-being of all these prudential institutions lies mainly in such processes as are here indicated. (*See* also note at foot of "Rates of Interest" Table, p. 49, *post*, and note to "Decennial Return" Table, p. 51, *post*.)

* The numbers in this column represent all Lodges or Courts that furnished returns respecting their financial operations. These are fewer than those that furnished statistics of number of members, sickness, mortality, &c., as in subsequent Tables.

NOTE.—The details of Income were, in some instances, furnished by the Societies in an imperfect state, whilst the total was furnished correctly. In consequence of this, the sum of the amounts entered in the columns showing the details of Income is often less than the amount in he total column.

WILLIAM HENRY ARCHER, Registrar-General.

* The numbers in this column represent all Lodges or Courts that furnished returns respecting their financial operations. These are fewer than those that furnished statistics of number of members, sickness, mortality, &c., as in subsequent Tables.

† Where the minus sign (—) occurs in this column the amount against which it is placed has been borrowed from the Sick and Funeral Fund.

* The number of Lodges or Courts in this Table is less, for some years, than that given for the corresponding years in the Decennial Return at page 51, *post*, the reason being that fewer Societies furnished returns of their financial operations (Form F) than of the number of members, sickness, &c. (Form E).

NOTE.—The details of Income and Expenditure do not always balance with the totals, in consequence of the former being sometimes furnished in an imperfect state.

NOTE.—It will be observed that nearly £64,000 out of £188,690, or upwards of one-third of the total investments of all the societies, is placed out as low as from 2½ to 4 per cent. This is a great declension from the old colonial rates, and demands vigilant supervision on the part of the officers entrusted with the management of the various funds.

* The number of Lodges or Courts in this Table is greater in some years than that shown for the corresponding years in the Decennial Table at p. 47, *ante*, the reason being that some of the Societies that furnished the returns of their members, &c. (Form E), did not also furnish returns of their financial operations (Form F).

NOTE.—This and the preceding Tables do not present a statement of the operations of all the Friendly Societies in Victoria, since many of the societies have each year failed to comply with the Act in regard to those provisions which prescribe that Returns shall be furnished to the Registrar-General. Societies should make these Returns, not merely in compliance with the law, but for their own future welfare, it being necessary to accumulate data over a considerable period in order to determine the true graduated rate of sickness and mortality to the extreme of life. The apparent steady increase of sickness from 1865 necessitates strict attention on the part of Friendly Societies to the note at the head of the table headed "Friendly Societies—Income," at p. 42, *ante*. In fact, the rapid declension of colonial rates of interest, coupled with the continued development of "Aliment Time," as above indicated, would warrant the tentative adoption of a modified graduated scale, such as has been promulgated recently by the Manchester Unity in England. This would reduce the necessity of levies to a minimum. (*See* also note to "Rates of Interest" Table, p. 49, *ante*.)

WILLIAM HENRY ARCHER, Registrar-General.

* The sum of the Non-fatal Cases of Sickness and the Number of Deaths is sometimes in excess of the number in this column, since, in some instances, the same member had more than one attack of illness during the year.

VITAL STATISTICS OF FRIENDLY SOCIETIES.—EXPERIENCE OF SICKNESS AND MORTALITY.

RETURN for the Year 1872 of the Ages and Occupations of the Sick Members, and the Members who Died, of the various Friendly Societies in the Colony of Victoria which furnished Returns to the Registrar-General; also the Time for which Aliment was allowed, and the Period of Sickness before Death—*continued.*

METEOROLOGY.

*** The times of taking daily observations whereby the records of mean temperature and mean atmospheric pressure are obtained at the various stations, are as follow:—Melbourne, Portland, and Cape Otway, 6h. and 9h. a.m., and 3h. and 9h. p.m.; Sandhurst, 9h. a.m., and 3h. and 9h. p.m.; Ballarat, 9h. 30m. a.m., and 3h. 30m. and 9h. 30m. p.m.; Ararat, 9h. a.m., and 3h. p.m. To these observations a correction is applied, in order to make the results equivalent to those derived from hourly observations.

[1] This column presents a statement of the average numbers attending at one service only on the Sabbath, and it has been pointed out that this mode of calculating the attendance does not render the returns of the different denominations strictly comparable, inasmuch as, in connection with some religious bodies, there are several services held on the same day, at each of which an entirely distinct set of worshippers attends, whilst, in the case of other denominations, the attendance at subsequent services always consists, to a greater or less extent, of the same individuals as were comprised in the first congregation.

[1] In connexion with the Melbourne Grammar School there is an exhibition of £21, tenable for three years, which is awarded annually to a boy under 14, for education in the school; also one of £20, given annually for two years to a student who is going to attend the University.——[2] At the Geelong Grammar School there are now three students under education as exhibitioners from Common Schools.——[3] In connexion with the Scotch College there is an exhibition of £21, tenable for two years, annually open for competition to boys under 14 years of age. The successful candidate is required to attend the classes of the college.——[4] In connexion with the Wesley College there is a scholarship called the "Draper scholarship," which has been established in memory of the late Rev. D. J. Draper, who perished in the *London*. It is of the value of £25, tenable for one year. Two other scholarships have also been lately founded by Mrs. Powell, to be called the "Walter Powell Scholarships," in memory of her late husband. They are of the value of £40 each, payable in two annual instalments of £20. Accepted candidates for the Wesleyan Ministry form a distinct division, but their admission is only a provisional arrangement awaiting the proposed establishment of a Theological Institution.

Note.—The large increase in the number of scholars in Public Schools shown in the returns for 1869, 1870, 1871, and 1872, as compared with previous years, is partly owing to the fact that, in the figures supplied by the Education Office prior to those years, the average monthly number of children on the Rolls was given; whereas, for 1869, 1870, 1871, and 1872 the total numbers who attended the schools were returned. It was mentioned in a footnote to the Table of Common Schools *ante* that a correction applied for the children who attended at more than one school during 1872 would reduce the number shown in the Table (135,962) to 118,498 as the number of distinct children who attended Common Schools in the year. In the "Statistics for 1868" it was in like manner stated that the number of distinct children who attended Common Schools in that year was 101,925; in the "Statistics for 1869" the number was stated to be 106,079; in the "Statistics for 1870" the number was stated to be 107,537; and in the "Statistics for 1871" the number was stated to be 114,300.

[1] The returns of the Ararat Hospital are for the year ending 30th June 1873.——[2] These figures have been copied from the return for 1871, as the information has not been supplied for the year 1872.——[3] The Melbourne Lying-in Hospital is also an Infirmary for Diseases peculiar to Women and Children; therefore several males are included in the columns of "Persons Relieved."——[4] Of this number 31, viz., 23 males and 8 females, were paying patients.——* These institutions are also Benevolent Asylums.

NOTE.—The returns do not always distinguish the sexes of the persons relieved, hence the sum of the males and females on the total line does not in every case agree with the total of both sexes.

WILLIAM HENRY ARCHER, Registrar-General.

[1] In addition to the quantity of land sold and amount realized within the year, the figures under the head "Land Sales" represent, during each of the years after 1868, the total extent of, and amount paid on, lands purchased under deferred payments of which the payments were completed within the year, although such payments had extended over a series of years.

[2] The returns of Gold Exports for the four years, 1852–1855, contain, in addition to the amounts which passed through the Customs of this colony, the following quantities of Victorian gold which passed through the Customs of the adjacent colonies without being recorded in Victoria:—1852, 749,957 ozs., value £2,624,851; 1853, 652,297 ozs., value £2,446,114; 1854, 247,366 ozs., value £958,543; 1855, 41,530 ozs., value £166,120. Total, 1,691,150 ozs., value £6,195,628. No estimate has been given of the further quantity of gold taken out of the colony by private hand and not recorded in any Custom House. The returns show the gross exports. Scarcely any gold appears in the import returns until after the gold export duty was abolished at the end of 1867. Since then, the following are the imports of gold, chiefly from New Zealand:—1868, 326,550 ozs., value £1,305,825; 1869, 363,716 ozs., value £1,415,473; 1870, 376,926 ozs., value £1,507,068; 1871, 329,181 ozs., value £1,317,018; 1872, 246,641 ozs., value £986,494. Nearly all this gold was doubtless re-exported.

[3] Since the year 1864, a considerable quantity of wool has each year been imported into Victoria across the Murray, from the Riverina district of New South Wales, for transport by the Echuca railway to Melbourne and shipment thence. No precise record of the quantity so introduced has hitherto until recently been kept at the Customs, and most of it has been shipped as Victorian wool. It has, however, been ascertained that at least 13,000,000 lbs. of wool, valued at £972,000, crossed the Murray into Victoria in the year 1870, and 19,552,598 lbs., valued at £1,096,772, crossed the Murray into Victoria in 1872.

[4] The figures of Revenue and Expenditure are for the year ended 31st December of each year until 1871, when the financial year was changed so as to terminate on the 30th June. The figures for 1871 are therefore for the six months ended 30th June, and the figures for 1872 are for the twelve months ended 30th June.

[5] The Births and Deaths given for 1853 are all of which there is any record; but it is known that the figures considerably under-state the truth. It is supposed that each in reality amounted to not less than 5000. The deficiency has chiefly arisen from the fact that the system of registering Births and Deaths was entirely changed during the year 1853, and the new system was not at first properly understood. In consequence of this, and also owing to the unsettled state of the goldfield population, it is known that many children born were neither baptized nor registered, and many persons who died were buried without registration or funeral service.

WILLIAM HENRY ARCHER, Registrar-General.
